Another insane challenge, by far my fav Bloons content creator

I had two ideas for challenges;
A. "Another Brick" but the removable cost is 0 and you can only place in the wall(You start with extra cash).
B."#Ouch" but only the center,I haven't done this one yet but I know that it'll be really hard and I'd love to see it from a good ultra-late game player.

Bosses are always fun so there's definitely room for good challenges almost every week
